ABOUT THE AMERICAN MOTORCYCLIST ASSOCIATION

Since 1924, the AMA has protected the future of motorcycling and promoted the motorcycle lifestyle. AMA members come from all walks of life, and they navigate many different routes on their journey to the same destination: freedom on two wheels. As the world's largest motorcycling rights organization, the AMA advocates for motorcyclists' interests in the halls of local, state and federal government, the committees of international governing organizations, and the court of public opinion. Through member clubs, promoters and partners, the AMA sanctions more motorsports competition and motorcycle recreational events than any other organization in the world. AMA members receive money-saving discounts from dozens of well-known suppliers of motorcycle services as well as on gear and apparel, bike rentals, transport, hotel stays and more. Through the AMA Motorcycle Hall of Fame, the AMA preserves the heritage of motorcycling for future generations.

A History of AMA Supercross

AMA Supercross is featured in high-profile stadiums across North America. However, this exciting bar-banging, high-flying sport has its roots on the outdoor, natural terrain tracks of motocross.

When motorcycle racing resumed following World War II, U.S. motorcycle racing focused primarily on flat track, as it had before the war. Races were held on the numerous dirt ovals and horse tracks across the country, along with a limited schedule of AMA National roadracing events. Meanwhile, the first motocross races were being organized in post-war Europe.

In 1947, the Federation Internationale de Motocyclisme (FIM) created the Motocross des Nations, an annual event to determine the World Team Motocross Champions. In 1957, the FIM fully embraced motocross by creating an individual World Motocross Championship Series.

Early motocross machines were relatively primitive by today's standards. They were heavy, underpowered and equipped with rudimentary suspension systems that did little to smooth out the rough terrain. But motocross had two undeniable elements that promised future success: It provided an affordable but highly challenging sport for participants, and offered incredible, up-close action for spectators.

In the late 1960s, the European masters of motocross began to export their talents and technology to North America, where a related discipline of "rough scrambles" had developed independently. In a matter of a few years, motocross had taken hold in America.

The AMA held a variety of amateur and Pro-Am motocross races in the late 1960s. By 1972, American racers had motocross fever, and the AMA established a formal National Championship Motocross Series.

At the time, U.S. riders could only dream of beating their more experienced European counterparts. But international stars, led by Belgium's Roger DeCoster, gave the Americans an exciting target. And by the time the 1980s rolled around, the Americans had learned the lessons well enough to dominate the sport. During this decade of motocross racing, the United States delivered to the motorcycling world a new development that has changed the very face of the sport.

In 1971, the AMA conducted a professional motocross race on a temporary track at Daytona

International Speedway. While most motocross races had been held in the remote, rural countryside, Daytona brought motocross to the people. A year later, the concept was taken a step further—motocross was brought to major urban sports stadiums, beginning with the Los Angeles Coliseum. The term “Supercross,” a combination of Super Bowl and Motocross, was coined. In the 1980s and 1990s, teams, motorcycle manufacturers, broadcast partners, race facilities and sponsors worked together to bring the sport to new audiences. Top Supercross riders became household names, and off-road motorcycle sales soared.

Today, AMA Supercross, an FIM World Championship, is undisputedly the top Supercross series in the world and draws elite rider talent from every corner of the globe. An international cadre of manufacturers target their best equipment and development teams at these series in the quest for Championship titles.

The AMA Supercross Championship is presented in the 450 SX class, which primarily features four-stroke 450cc technology. The 250 SX class, which showcases riders on four-stroke 250cc motorcycles, is split into U.S. eastern and western regional divisions, each awarding its own title.

AMA SUPERCROSS RULES IN BRIEF

The following section contains excerpts from the Official AMA Supercross Rule Book. For complete rules, consult the official rule book.

EQUIPMENT STANDARDS

Supercross Class motorcycles are subject to the following requirements in addition to the applicable requirements in General Equipment Standards. Superseded parts controlled by these rules must be submitted to AMA Racing for review and homologation before use in competition. In addition, these parts must then be listed in the current OEM parts list as supplied to the AMA. Motorcycle components not specifically controlled by these rules may be modified, removed or replaced.

SUPERCROSS CLASS

2.1 ENGINES

- a. Engine Displacements:
 - 150 – 250cc 2-stroke
 - 249 – 450cc 4-stroke
- b. Material and castings of the cylinders, cylinder heads and crankcases must be the same as the originally approved model. Material may be added or removed from these items.

2.2 WEIGHT LIMIT

Minimum weight requirement:

- 150 – 250cc 212 pounds
- 251 – 450cc 220 pounds

250SX CLASS

250SX Class motorcycles are subject to the following requirements in addition to the applicable requirements in General Equipment Standards. Superseded parts controlled by these rules must be submitted to the AMA for review and approval before use in competition. In addition, these parts must then be listed in the current OEM parts list as supplied to the AMA. Motorcycle components not specifically controlled by these rules may be modified, removed or replaced.

E4.1 ENGINES

- a. Engine Displacements:
 - 0 – 125cc 2-stroke
 - 0 – 250cc 4-stroke
- b. Material and castings of the cylinders, cylinder heads and crankcases must be the same as the originally approved model. Material may be added or removed from these items.

E4.3 WEIGHT LIMIT

Minimum weight requirement:

- 0 – 125cc: 194 pounds
- 126 – 250cc: 212 pounds

THE RACING PROGRAM

Supercross events are composed of a 20-lap final race for 20 riders in the Supercross class. The field is qualified through a series of heat races staged throughout the event.

4.2 PARTICIPANT REGULATION

Every club, association, company, promoter, rider, and all other persons participating in or in any way connected with an AMA Supercross or FIM World Championship race event, will be considered participants and therefore bound by the AMA Supercross or FIM World Championship Rule Book.

4.5 SUBSTANCE ABUSE POLICY

- a. Supercross and 250SX class.
 1. The Supercross and Supercross Lites class riders will follow the terms and conditions of the FIM Anti Doping Code.
- b. AMA Officials and Crew credential holders.
 1. AMA Officials and crew credential holders will follow the terms and conditions of the AMA Substance Abuse Policy.
- c. Random tests for drugs and alcohol may be conducted at the discretion of AMA Racing the FIM or their respective drug-testing partners.
- d. Compliance with the FIM Anti-Doping Code or AMA's Substance Abuse Policy is an essential precondition to the issuance of a Professional Competition license or event credential.
- e. Any violation of the policy or refusal to submit to testing as requested by AMA, the FIM or their respective drug-testing partners may result in the immediate suspension of the competitor's license and loss of all rights to compete in AMA Professional, AMA Amateur sanctioned events, or FIM sanctioned events.
- f. Both the AMA Substance Abuse Policy and the FIM Anti Doping Code are available upon request from the AMA Racing office.

4.6 INTRAVENOUS HYDRATION

- a. At no time during the event will a rider receive any type of intravenous hydration unless such hydration is deemed medically necessary by medical personnel as a result of an emergency medical situation (e.g. heat stroke) encountered by a rider, during, or as a result of competing in, an event, practices, heat races or qualifying sessions that are part of an event.
- b. Once a rider receives such hydration during the meet, the rider will not be permitted to compete in any further events at the meet including, but not limited to, any further practice sessions, heat races, qualifying sessions or final events composing any event in the meet unless and until the rider is released by the medical personnel who treats the rider for the specific emergency medical situation at issue.

4.7 TRACK RENTALS

Exclusive race track rentals for the purpose of testing or practice within 72 hours of an event that will take place at the rented facility is not permitted.

4.8 INCLEMENT WEATHER / UNACCEPTABLE TRACK CONDITIONS

- a. Events may be conducted regardless of weather conditions.
- b. In the event of rain or other unfavorable conditions, it may be necessary for the Race Director to alter the order of the event schedule, including, but not limited to: adjusting the length of races, practices and qualifying sessions, and delaying or stopping the program completely.
- c. Should a delay occur, the Race Director will make every effort to resume the schedule in a timely fashion if conditions significantly improve.
- d. If an event is stopped due to weather or other conditions, riders will be paid for purse-paying events that have been completed.

4.9 MOTORCYCLE USAGE

- a. Riders must use the same motorcycle (same main frame) for qualifying and the main program.
- b. If the motorcycle's mainframe is damaged, the frame may be changed only with approval from the Race Director. Approval must take place prior to usage of the new frame.
- c. Riders must use the same motorcycle for parade or sighting lap as the race.

4.10 PIT / PADDOCK REGULATIONS

- a. Riding of competition motorcycles, other than on the racetrack or designated warm-up lane, is discouraged. Helmets must be worn at all times in the warm-up lanes.
- b. Operation of a vehicle in the paddock must be at a very slow, acceptable speed (10 MPH maximum).
- c. A rider or mechanic testing a motorcycle in the designated test area must wear a helmet and be dressed to offer some protection (pants, shirt and shoes).
- d. Smoking is not allowed in the mechanics' area, tech inspection area, and sound testing area or other restricted areas.

- e. Persons less than 16 years of age are not allowed in mechanic's area or other restricted areas.
- f. Pets are not allowed in the mechanics' area or other restricted areas.
- g. Pets in the paddock must be on a leash or properly contained.
- h. All persons in the mechanics' area must be in proper dress. Shirts must have a collar. Open-toe shoes, cut-offs and sleeveless shirts/tank tops are not permitted.
- i. Before leaving a race facility, it is the responsibility of riders/teams to deposit all of their waste fuel, fuel drums, motor oils, coolants, tires, batteries, black water and all other hazardous wastes in the proper hazardous waste disposal area provided by the track. Should containers not be available on-site, riders/teams must transport such items from the facility for proper disposal.

4.11 RIDER MEETINGS

- a. All riders entered in the event must attend the rider meeting.
- b. The Race Director may call roll or spot-check attendance.
- c. *Failure to attend the riders meeting may result in a fine.***

4.13 TECHNICAL INSPECTIONS

- a. Technical inspections of motorcycles, equipment and riding apparel will be held prior to and after a race event, or at other times as determined by the Race Director or Chief Technical Inspector.
- b. Although the motorcycle, equipment or apparel passed prior inspections, the motorcycle, equipment or apparel must be in compliance with the rules at the post-race inspection.
- c. Only motorcycles having passed tech inspection will be allowed on the race track.
- d. Motorcycles must be class legal and must meet all equipment requirements.
- e. More than one motorcycle per class may be presented and passed through initial technical inspection provided frame numbers are properly recorded indicating race motorcycle and practice motorcycles. Motorcycles used for timed qualifying are considered race motorcycles.
- f. The Race Director or Chief Technical Inspector may require post-race teardowns to begin following the completion of the event.
- g. During post-race technical inspections or teardowns, only two working mechanics for each impounded motorcycle are permitted in the inspection/impound area.
- h. Only the Race Director, Chief Technical Inspector or designated personnel may inspect impounded motorcycles or equipment.

4.14 ON-TRACK REGULATIONS

- a. No rider may ride in such a manner as to endanger life or limb of other riders, officials or the public.
- b. No one, except riders officially entered, may ride or practice on the racecourse on the day of the event.
- c. Unofficial practice on the day of the race is prohibited.
- d. Unless directed to do so by the Race Director or his designee, no one will be permitted to ride a motorcycle in the wrong direction on the track.
- e. Except in the designated mechanics' area, no adjustment, repairs or refueling may be made to competing motorcycles by pit crews during a race. Riders must pull into the designated mechanics' area and be off the racetrack before receiving crew assistance.
- f. A rider may make repairs during a race, without assistance, in a suitable area, off the racetrack.
- g. Outside assistance to a rider on the course is forbidden at all times except when the assistance is given by flag marshals or officials placed by the Race Director for the purpose of control and safety with the following exceptions:
 - 1. Assistance by crewmembers is permitted only in the designated repair and signaling zone.
 - 2. Assistance by crewmembers is permitted from the starting gate up through the first turn following the start of a race. (first lap only) These crewmembers must be wearing a special pass/armband.
- h. A rider leaving the course may continue the race by properly re-entering the track at the closest safe point to where the rider left the course without gaining an advantage. It will be the duty of the Race Director or his designee to make the determination as to whether a rider gained an advantage by leaving the racecourse and re-entering.
- i. A rider may be determined to have gained an advantage without gaining a position.
- j. In programs that require qualifying races, a rider must attempt to start a qualifier in order to be eligible for the main event.

- k. A motorcycle that enters the paddock during a race will not be permitted to return to the racetrack.
- l. Intentionally stopping on the racetrack during timed practice is prohibited. Every time a rider is found in violation of this rule he or she will have his or her fastest lap of that session removed from the official results. A stoppage on the racetrack resulting from a mechanical issue or a fall down will not be considered intentional. The Race Director or his designee will make the determination as to whether or not the stopping was intentional.
- m. During a race, a rider must always attempt to succeed. If not, he or she shall not be allowed to continue the competition and may be penalized by the Race Director.

4.15 FLAGS AND LIGHTS

- a. Operational Flags / Lights
 - 1. **Green Flag:** Indicates the start of a race or clear track conditions.
 - 2. **Checkered Flag:** Indicates the end of a race or practice session; proceed to the designated track exit.
 - 3. **Red Flag:** Indicates the race has been stopped. Reduce speed and proceed safely to the staging area or ***as directed by a race official.***
 - 4. **Red Flashing Light:** A red flashing light may be displayed at the beginning of a triple jump or a series of jumps. Riders must roll each jump individually with no passing and exercise extreme caution until they are past the area of concern.
 - 5. **Black Flag:** Indicates a problem with a rider's motorcycle or a disqualification. A number board displayed with the flag indicates the rider being signaled. The black flagged rider must carefully reduce speed and proceed around the course to the mechanics area. Black-flagged riders are not permitted to return to the racecourse unless cleared by the Race Director.
- b. Warning Flags
 - 1. **Yellow Flag Or Yellow Light: Waving Yellow Flag or Yellow Flashing Lights:** Indicates serious hazard on or near the track.
 - Passing is allowed
 - Proceed with extreme caution.
 - 2. **Solid Blue Flag :**
 - Indicates you are about to be overtaken by faster riders.
 - When conditions allow, move out of the fast line.
 - Hold your line (don't ride erratically) and do not impede the faster riders progress.
 - Riders disregarding this flag may be black-flagged at the discretion of Race Director.
 - 3. **White Flag with Red Cross:** In Supercross this flag or a red flashing light may be displayed at the beginning of a triple jump or a series of jumps. The riders must roll each jump individually with no passing and exercise extreme caution until they are past the area of concern.

4.16 SUPERCROSS RACES

- a. AMA Supercross an FIM World Championship meetings are organized according to an established procedure/model:
 - Free Practices
 - Timed Qualifying Practices
 - Two Heat Races
 - One Last Chance Qualifier
 - One Final (main event)
- b. In the Heat Races, 1st through 9th will advance to the main event; 10th through 20th will advance to the Last Chance Qualifier.
- c. In the Last Chance Qualifier, 1st and 2nd will advance to the main.
- d. The Supercross class Main Event will be 20 laps.
- e. The first rider across the finish line at the conclusion of a race is the winner.
- f. The two Heat Races, Last Chance Qualifier and the Final (Main Event) may also be referred to as "the evening program."
- g. A Heat Race, a Last Chance Qualifier or the Final (Main Event) may also be referred to as "Race(s)."
- h. The "AMA Supercross an FIM World Championship" may also be referred to as "Championship."

4.17 QUALIFYING

- a. All qualifying practices will be timed.
- b. Afternoon qualifying practices will be used to compile the 40 fastest riders (the "Fast 40") in the Supercross and 250SX Classes. These 40 riders will advance to the Evening program.
- c. If a rider or riders have qualified in the top 40 but are unable to participate in the evening program, riders that qualified outside of the top 40 may be allowed into the heat races. This will be done starting with the 41st qualifier until all positions for the evening program are filled. These riders will pick their gate position in the order in which they qualified after all riders in that heat race from the top 40 have gated. Riders outside of the top 40 may be denied this option based on lap times at the sole discretion of the Race Director.
- d. Afternoon qualifying practices will also be used to determine the order for gate picks in the Heat Races. The fastest rider will be the first gate pick in the second heat. The second fastest rider will be the first gate pick in the first heat race and so on until all qualifying riders are placed in a heat race.
- e. In the Supercross class only, a rider who is currently in the Top 10 in points who fails to make the Fast 40 in qualifying practices will be placed on the 21st gate pick in the first heat race. A second (NQT10) in qualifying practices will have the 21st gate pick in the second heat race. Up to a maximum total of 2 NQT10 riders can be placed in each heat race. They will be placed in their respective heat race in priority of their position in the top 10. (For the first race of the season: according to previous year's final standings.)

E6 QUALIFYING AT 250SX RACES

- a. All qualifying practices will be timed.
- b. Afternoon qualifying practices will be used to compile the 40 fastest riders (the "Fast 40") in the 250SX class. These 40 riders will advance to the evening program.
- c. If a rider or riders have qualified in the top 40 but are unable to participate in the evening program, riders that qualified outside of the top 40 may be allowed into the heat races. This will be done starting with the 41st qualifier until all positions for the evening program are filled. These riders will pick their gate position in the order in which they qualified after all riders in that heat race from the top 40 have gated. Riders outside of the top 40 may be denied this option based on lap times at the sole discretion of the Race Director or AMA.
- d. Afternoon qualifying practices will be used to determine the order for gate picks in the heat races. The fastest rider will be the first gate pick in the second heat. The second fastest rider will be the first gate pick in the first heat race and so on until all qualifying riders are placed in a heat race.

E7 SUPERCROSS LITES RACES

- a. The Evening Program in 250SX will consist of two Heat Races, one Last Chance Qualifier, and one Main Event.
- b. In the Heat Races, 1st through 9th will advance to the main event; 10th through 20th will advance to the Last Chance Qualifier.
- c. In the Last Chance Qualifier, 1st and 2nd will advance to the main.
- d. The 250SX Main Event will be 15 Laps.
- e. The first rider across the finish line at the conclusion of a race is the winner.
- f. The issuing of official results does not exempt riders who competed in the event from penalties for rules violations determined by AMA investigations following the protest period.
- g. In the case of a protest, riders are entitled to review their scores with the timing and scoring manager.

4.21 RESTARTS

- a. The race is stopped (with fewer than three laps completed by the race leader / whether it be a Heat, Last Chance Qualifier or Main Event)
 1. A red flag will be displayed to the riders.
 2. The race will be considered null and void.
 3. The riders will return to the starting area and a re-start will take place as soon as possible.
 4. The riders will keep their initial starting order.
 5. The riders will be restarted from the starting gate.

6. Riders who were present at the starting gate for the original start of the race but were unable to start and who did not join the race before the red flag was displayed are not authorized to take the restart.
 7. The race will be run for the original number of laps.
 8. In the case of a Final, if it is found impossible to restart then this Final will be declared cancelled and not count for the Championship.
- b. The race is stopped (with more than three laps and less than 90% of the total distance completed by the race leader, rounded down to the nearest whole number of laps / whether it be a Heat, Last Chance Qualifier or Main Event)
1. A red flag will be displayed to the riders.
 2. The riders will return to the starting area and a re-start will take place as soon as possible.
 - a. A minimum of 10 minutes from the time that the red flag is displayed will be given to make repairs or adjustments.
- b. The race may be re-started before the minimum 10 minute waiting time only if all riders indicate to the Race Director that they are ready to start.***
- c. Repairs or adjustments may only be made in the starting area.
 3. The starting order will be determined by each rider's race position at the end of the lap preceding the stopping of the race.
 4. Riders will be restarted from a staggered standing start in the starting area.
 - a. Riders will be lined up in a staggered formation beginning on the starting straight at a start line located by the first turn, starting with the rider that was in the first position and continuing back towards the starting area.
 - b. Riders not ready to take their position in line will be placed last.
 - c. Once all riders are in position, the starter will display a green flag to signal the start.
 - d. Any movement of the motorcycle before the display of the green flag will be considered a jumped start. Any rider deemed to have jumped the start will be penalized a minimum of two positions in the final results.
 - e. Eligible riders who are unable to participate in the re-start due to a stalled motorcycle or continued repairs may join the race from the starting area at anytime during the race.
 5. Riders who were no longer actively participating in race at the time when the red flag was displayed are not authorized to take part in the restart.
 6. The race will be run for the remaining number of laps.
 7. In the case of a Main Event, full championship points will be awarded.
- c. The race is stopped with more than 90% of the total distance completed by the race leader, rounded down to the nearest whole number of laps / whether it be a Heat, Last Chance Qualifier or Final)
1. A finish flag will be displayed to the riders.
 2. The riders will return to the paddock.
 3. The race will be considered completed. In that case, the riders' position will be those at the end of the lap preceding the stopping of the race.
 4. In the case of a Heat or Last Chance Qualifier, the riders will qualify for the Main Event or be relegated to the Last Chance Qualifier according to these results.
 5. In the case of a Last Chance Qualifier, the top two riders will qualify for the Main Event according to these results. The remaining riders are eliminated.
 6. In the case of a Main Event, full championship points will be awarded.

4.22 RACE FINISHES

- a. Races are officially ended for all contestants at the completion of the lap in which the checkered flag is displayed to the winner.
- b. To be considered as having completed a lap, the rider and his motorcycle must cross the plane of the checkered flag.
- c. Riders will be credited with all laps they complete during a race unless a penalty has been assessed.
- d. Riders choosing to leave a race before its completion need not wait for the checkered flag to receive credit for laps they have completed.
- e. Should the checkered flag be displayed later than the official distance, the finishing order will be decided on the basis of the official distance.
- f. Under any other circumstances, the winner is the leader at the time the checkered flag is displayed.

-
- g. A motorcycle that enters the paddock during a race will not be permitted to return to the racetrack.
 - h. Should a rider be given the checkered flag ahead of the actual winner, or with the winners, the rider will be scored as having completed the race in the race position the rider was running at that time.
 - i. A video camera may be used at the finish line to aid the scorekeepers in determining the finishing order of a close race. Should video footage from an AMA-designated camera be unavailable or inconclusive for any reason, the scoring of the finish will be based solely on the scorekeepers' decision.
 - j. At the conclusion of the Main Event, the top five finishing riders and their motorcycles must go directly to a staging area located at the podium. Other riders outside of the top 5 may also be directed to the podium staging area. Failure to go to the designated podium staging area may result in a fine.**
 - k. At the conclusion of the Main Event, and after the podium ceremonies are complete, the top three finishing motorcycles must go directly to the technical impound area located at the AMA trailer or other area as designated by the Chief Technical Inspector. Other motorcycles may be directed to impound at the discretion of the Chief Technical Inspector. Failure to go directly to the technical impound area will result in a penalty.**
 - l. At the conclusion of the race any riders who do not complete the same number of laps as the leader will be scored in order of finish, laps completed and the number of laps completed first.
 - 1. If more than one rider starts the race but does not complete one full lap as per official scoring, those riders will be placed in the final results based their qualifying time.**
 - m. A rider whose motorcycle is disabled before reaching the finish line may, by the rider's own unaided muscular energy, push or carry the motorcycle in the proper direction of the track to complete the race by crossing the finish line, unless the rider is determined to be a hazard by the Race Director.

4.23 OFFICIAL RACE RESULTS

- a. No official announcement of race results will be given until all scoring materials are examined and approved by the Timing and Scoring Manager.
- b. Provisional results will then be posted and will become official if a rider does not protest against the results within 30 minutes after they have been posted.
- c. If rechecks are required within the 30-minute time limit, a new posting time limit of 30 minutes will be required if changes are made to the previously posted results.
- d. The issuing of official results does not exempt riders who competed in the event from penalties for rules violations determined by the Race Director following the protest period.
- e. In the case of a protest, riders are entitled to review their scores with the Timing and Scoring manager.

CHAMPIONSHIP POINTS

- a. When the results of Supercross main events are declared official, AMA Supercross an FIM World Championship points will be awarded down to a maximum of 20 places for the overall results of the Main Events.
- b. In the event that a qualified rider is unable to make the start of the main event, they will be placed in last place in the final results. If more than one qualified rider is unable to start they will be placed in order of qualifying in the final results. In either case they will earn points and purse based on the final results.**
- c. Under special circumstances, if more than 20 riders are in the main event, riders finishing 21 and up will receive 1 point.
- d. The AMA Supercross, an FIM World Champion will be decided based on the total of series points accumulated from each Main Event.
- e. In the event of a tie for the championship, the winner will be determined based on the number of Main Event wins.
- f. Should a tie still remain, finishes of second, third, etc, will be tallied until the tie is broken.
- g. If a tie still remains, the best finish in the last race will determine the champion.
- h. AMA Supercross an FIM World Championship Points Schedule

Points will be awarded for Supercross Main Events according to the following schedule:

FINISH POSITION	POINTS	FINISH POSITION	POINTS
1	25	11	10
2	22	12	9
3	20	13	8
4	18	14	7
5	16	15	6
6	15	16	5
7	14	17	4
8	13	18	3
9	12	19	2
10	11	20 and up	1

SUPERCROSS CLASS MANUFACTURERS' CHAMPIONSHIP

- a. For the Manufacturers' Championship, only the highest placed motorcycle of each manufacturer will gain points, according to the rider's position in each Final (Main Event) of the "AMA Supercross, an FIM World Championship".
- b. The same 20 place Championship point schedule applies to manufacturers as it does to the riders in Supercross.
- c. In case of ties for the Manufacturers' Championship, the same conditions as for the riders will apply to determine the winner.
- d. In the case where a rider participates on motorcycles from different manufacturers, it is the make of the motorcycle with which he has obtained the most points that will appear next to his name in the final standings, without, however, modifying the calculation for the Manufacturers' Championship.

From 1976 on, the Supercross series has been limited to the 250cc class.

The AMA held Supercross races in 1972 and 1973, but no formal series was held in either of these years. Thus, the AMA did not declare a champion for either year.

Supercross class known as 250cc prior to 2006.
